## **Quality Performance Year 2021**

What to expect from the Quality Payment Program in 2021

## 2021 Updates to CMS the Quality Payment Program

### **Relevant Updates**

**New Category Scoring** 

New Performance Requirements

Increased Penalty/Bonus

**Advanced APMs** 

## **Program Requirements**

Providers and groups are required to measure data for the entire performance year starting in January 2021. This data may be selected for validation after reporting.

70%

In order to meet the program requirements, providers and groups must report on 70% of the eligible data available. This means <u>all</u> encounters regardless of insurance.

## MIPS Performance Year 2021: Category Scoring

40%

#### **Quality Measures:**

Select 6 of the 209+ measures to report data on for PY 2021.

25%

### **Promoting Interoperability:**

Submit data on each of the 4 objectives for a Certified EHR.

15%

### **Improvement Activities:**

Report on 1 to 4 of the available activities depending on eligibility.

20%

#### **Cost Measures:**

Administrative claims measure. CMS will determine this score.

## 12 Quality Measures Removed

#### **Quality Measures**

12: Primary Open-Angle Glaucoma: Optic Nerve Evaluation (still available as eCQM)

69: Hematology: Multiple Myeloma: Treatment with Bisphosphonates

146: Radiology: Inappropriate Use of "Probably Benign" Assessment Category in Screening Mammograms

333: Adult Sinusitis: Computerized Tomography (CT) for Acute Sinusitis (Overuse)

348: Implantable Cardioverter-Defibrillator (ICD) Complications Rate

390: Hepatitis C: Discussion and Shared Decision-Making Surrounding Treatment Options

408: Opioid Therapy Follow-up Evaluation

412: Documentation of Signed Opioid Treatment Agreement

414: Evaluation or Interview for Risk of Opioid Misuse

435: Quality of Life Assessment For Patients With Primary Headache Disorders

437: Rate of Surgical Conversion from Lower Extremity Endovascular Revascularization Procedure

458: All-Cause Hospital Readmission (Administrative Claims Measure

## Payment Adjustment Thresholds

The threshold to avoid a penalty has been increased from **45** points in 2020 to **60** points in 2021. Officially making 2021 the most challenging year of MIPS.

Classification	10	20	30	40	50	60	70	80	90	100
Penalty up to: -9%	Penalty Avoidance Threshold is 60									
Bonus up to: +9%							tive Adjust	ment		
<b>Exceptional Performance: Max</b>									Top Perfo	rmers

## **Financial Opportunity**

## Eligible Provider Criteria

**EP Criteria**: Minimum of \$90,000 in Medicare Claims or 200 Part B Patients Per Provider

# \$1 Million In Medicare Part B

\$1 Million + 9% = \$90,000 Bonus

\$1 Million - 9% = -\$90,000 Penalty

## MIPS Timeline Performance Year 2021 and Beyond

PY 2021 2022 Q1 2022 Q1 2023 Q1 2023 Q1 2023 Q1

## MIPS Measurement Period

Performance for each Eligible Provider in Group is measured annually. Begins January 1, 2021

## Reporting for PY 2021

Performance data for Quality, PI, and CPIA must be submitted to CMS via a Qualified Registry

## MIPS Measurement Period

Performance for each Eligible Provider in Group is measured annually. Begins January 1, 2022

### Performance Scores Announced

Performance scores for each group are announced. Payment adjustment assigned.

## Reporting for PY 2022

Performance data for Quality, PI, and CPIA must be submitted to CMS via a Qualified Registry

### Payment Adjustment Begins

Medicare Part B claims adjustments begin. Adjustments based on PY score.

What happens in 2021 can significantly impact revenue long term

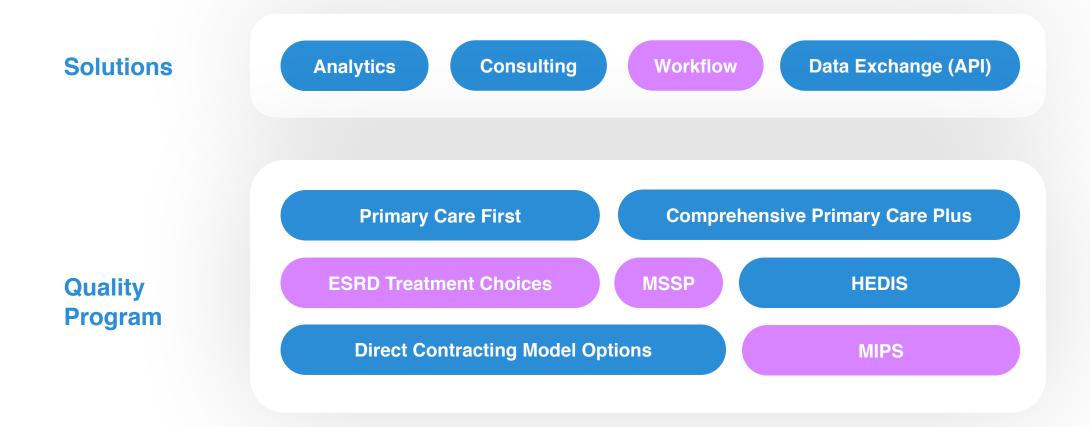

## Advanced Alternative Payment Models

There is an array of Advanced APMs that CMS offers

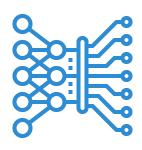

## **Supported Quality Programs**

## **Prepare to Perform**

#### **Data Measurement:**

Begin measuring data
ASAP. Quantifying
performance will allow
groups to control scores
and outcomes.

### **Streamline Efforts:**

Implement workflows that reduce friction on clinicians. Focus on the areas that need improvement the most.

### **Report Data**:

Regularly monitor performance data and adjust throughout the period. Report accurate data to CMS.

### **Quantician Solutions**

## **Quantician offers technology and services that maximize Quality Performance**

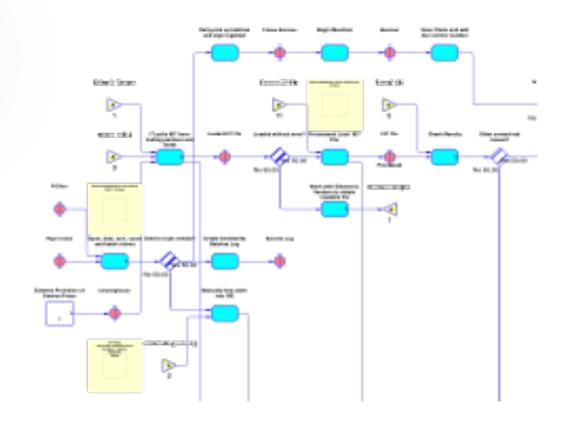

- Dashboards to help providers and groups manage their performance scores.
- Recommendations Engine to predict applicable measures per patient encounter.
- APIs that can integrate with any EHR
- Qualified Registry that can report data directly to CMS on behalf of providers and groups.
- Al to accommodate workflow automation and intelligent performance opportunities.

### **Quantician Services**

## Our experts work with each practice or group to ensure success

- Measures Selection
- Monthly Performance Review
- Workflow Modification
- Strategic Consulting
- Data Validation Audits
- Custom Data Analysis

## Quantician by the Numbers 2019\*

88.5 Average Quantician Provider Score. Exceptional Performers must exceed 75.

- 100% of Quantician providers avoided a negative payment adjustment
- 100% of Quantician providers that submitted data qualified for a positive payment adjustment.
